

Ed Stenson
Executive Field Supervisor
Dec. 2014

Project Role:

The Executive Field Supervisor oversees and coordinates all projects at the field level.

Profile:

Thirty five years experience in the construction industry as an Iron Worker, Iron Foreman, and Iron Worker Supervisor. General superintendent and project manager with special emphasis on pharmaceutical, industrial, petro-chemical based facilities, high rise construction, and tower crane erection.

Current Responsibilities:

Mr. Stenson's current responsibilities require him to oversee all jobs in the field, and to ensure that the customer's needs are met by dealing one on one with project managers and owners. Mr. Stenson also evaluates and coordinates crane placement and size needed to erect the current projects and those that are in the pipeline. Mr. Stenson also coordinates erection sequencing with the fabrication superintendent and the customer.

Associations and Special Training:

Completed 40 hours of OSHA training.
Member 30 years, IW Local #401

Education:

Monsignor Bonner High School, Drexel Hill, PA	1980
Folcroft Vo-Tech	1980
